

## Excursion to Etna volcano from Palermo

### Visit to Sylvan Craters

We propose you a very unique tour discovering the magic of Europe's tallest active volcano Etna; a tour ideal for whoever loves strong emotions, immersed in an enchanting landscape, one of the most beautiful places in Sicily, UNESCO'S world's heritage site from 2013.

From Palermo (or a place to agree on), together with our naturalistic guide, you will reach Sapienza refuge at 1920 m a.s.l.; you will visit sylvan craters and lava-made caves and you will admire the spectacular Bove Valley: a wide depression formed about 64.000 years ago because of the collapse of eruptive centers.

To fully appreciate this amazing tour to Etna, we advise the cableway with which you will be able to admire the spectacular craters shaped at 2920 m a.s.l. during the eruption in 2002-2003. Moreover, for reckless, it's possible to reach the highest craters at 3300m a.s.l. with 4x4 means together with a volcanological guide.

After, you can rest in one of several characteristic places and taste a glass of the famous "Fuoco dell'Etna" ( "Etna's fire"), a very intense typical liquor; you can also taste many delicious products like almond and Zagara honey.

Don't lose the opportunity to live unforgettable emotions with this trip to Etna and to be delighted by the magical atmosphere that only this fascinating volcano in Sicily can give.
